PCI and CABG: recovery and later events

FAME-3 stable-presentation subgroup | Published aggregate outcomes

A. Reported health status

B. Reported five-year events

Different outcomes and time windows: these panels do not estimate a net clinical benefit or a treatment rule.

EQ-5D: Fearon et al., Circulation 2022, appendix Table S3; adjusted for baseline diabetes.
Events: Fearon et al., Lancet 2025, appendix Table S9. Crude fractions do not adjust for censoring; stable-specific follow-up completeness is unavailable. A near-zero estimate does not establish equivalence.
